

Workshop on Innovation in Renewable Energy

Within the framework of community activities, the General Education Department at Al Falah University in cooperation with Dubai Electricity and Water Department (Dewa) organized a lecture for faculty members and students.

Engr. Noor Al Naqbi, Engr. Majida Ghayath and Engr. Al Naqbi all spoke during the lecture about the achievements of the Dubai Electricity and Water Department in the field of renewable energy and innovation in the field of renewable energy.

At the end of the lecture, Engr. Ghayath divided the students into groups for brainstorming sessions on ideas about daily practices through which different types of energy are consumed and the emission of polluted gasses in order to reduce these emissions and preserve the environment.
